

## EtnaFoam PPG 2025 DT

**OVERVIEW:** EtnaFoam PPG 2025 DT is a ditallate ester of polypropylene glycol 2025, offering superior versatility as a non-silicone defoamer base with excellent nonionic water and oil-emulsifying properties in hard and soft water. Its low foaming tendency, coupled with its functionality as a coupling and wetting agent, makes it ideal for metalworking fluids, water-based hydraulic fluids, and industrial cleaners. Additionally, EtnaFoam PPG 2025 DT serves as a highly effective surfactant and dispersant for applications in degreasers. Designed for demanding environments, it ensures stable performance under high shear and extreme conditions, empowering formulators to develop efficient and adaptable solutions for diverse industrial needs.

**CHEMICAL NAME:** Polypropylene Glycol (PPG) Ditallate

**FUNCTIONS:** Defoamer

### SPECIFICATIONS:

<b>Appearance:</b>	Clear to Hazy Amber
<b>Gardner Color:</b>	Liquid 2-8
<b>% FFA as Oleic:</b>	8-10
<b>Acid Value:</b>	15.9-19.9
<b>Odor:</b>	Bland/Fatty

### MARKET APPLICATIONS:

- Chemical Manufacturing – defoamer formulations
- Personal Care – defoamer in skin care
- Metal Working Fluids – water based hydraulic fluids, and other metal working fluids
- HI&I – industrial cleaners and degreasers

### SEE SDS FOR STORAGE, HANDLING AND IN CASE OF SPILLS
