

SierraSulf 2-EH NH

OVERVIEW: Sulfated 2-Ethylhexanol (NH) is an ammonium-neutralized, sulfate-based surfactant derived from 2-ethylhexanol. Its balanced composition provides excellent wetting, emulsifying, and foaming properties, making it a versatile ingredient for industrial cleaners, textile processing aids, and select oilfield applications. With good stability and compatibility across a range of pH levels, this product is a cost-effective, high-performing option suitable for a wide variety of formulations.
