

SierraSurf DOSI A 18

OVERVIEW:

SierraSurf DOSI A 18 is high quality surfactant, properly called n-octadecyl disodium sulfosuccinate. The product finds use in numerous applications, particularly those requiring excellent stability of foams, in both mechanical and heat extremes. The product is the original “backbone” surfactant for non-gel latex foams due to its excellent bubble stability. Numerous foam formulations are improved with the addition of SierraSurf DOSI A 18. The addition of SierraSurf DOSI A 18 helps stabilize latex compounds which are to be foamed.

CHEMICAL NAME: Disodium N-octadecylsulfosuccinamate

FUNCTIONS: Latex Foam Stabilizer

SPECIFICATIONS:

Appearance:	Hazy to Opaque White/Off-White
pH:	Liquid 8.7-9.8
Viscosity @ 25C: %	20-2500 cps
Solids:	31.0-34.0
Foam Test:	Must Pass Test

APPLICATIONS:

- Carpet backing and textile treatments

SEE SDS FOR STORAGE, HANDLING, AND IN CASE OF SPILLS
